**SuperSIXTIES**  
CLASSIC RACING LEAGUE

Super Sixties Racing (formerly NKHTGT) was established in 1996 as the Dutch Championship for Historic Touring Cars and GT's. Nowadays it has evolved into a series of 12 races in various countries, catering for touring cars, GT's and GTP's built between 1947 and 1965. We have drivers from Sweden, Germany, Belgium, UK, France, Switzerland, Italy and the Netherlands. NKHTGT raced at Brands previously in 2014, but the history goes back much further, to the Autosport World Cup of 1959 in fact, where the Brits and the Dutch raced each other for the first time. In those two races, Jim Clark showed everyone how it's done. In 2024 we need **you** to show us how it's done!
